PROFESSIONAL EXPERIENCE

Freelance Full-Stack Web Developer

Jan 2024 – Present

Independent (Self-Employed) · Remote

- Architected and deployed EasyExamSolution (easyexamsolution.online), a subscription-based SaaS platform for educational exam paper generation, serving 1,800+ registered users with 159+ active monthly subscribers across multiple pricing tiers (monthly, yearly, custom plans).
- Engineered high-performance database architecture using Supabase (PostgreSQL) with advanced indexing and query optimization, enabling sub-2-second retrieval from a repository of 67,000+ exam questions with zero server lag and real-time syllabus loading.
- Implemented robust content protection mechanisms including anti-inspect traps, keyboard shortcut restrictions, and DOM manipulation detection to prevent unauthorized data scraping of proprietary educational content.
- Developed TaskMatrix (taskmatrix.teambarry.blog), an enterprise task management system for software houses featuring Firebase Authentication, role-based access control, real-time Firestore synchronization, and agile workflow tracking.
- Built PakWagt (pakwagt.teambarry.blog), a Next.js localized utility application leveraging Server-Side Rendering (SSR) and Static Site Generation (SSG) for ultra-fast performance, achieving top-tier Lighthouse scores and advanced SEO meta-tag management.
- Delivered 5+ client projects including a full frontend redesign for SMMWorldBooster and multiple responsive landing pages and web applications, maintaining 95%+ on-time delivery with direct client communication and iterative feedback loops.
